 - c. In the residence of a practicing physician, dentist, veterinary, surgeon, or other medical practitioner who has no service at business rates at another location.
 - d. In any residence location where there is a substantial business use of the service and the customer has no service elsewhere at business rates.
3. Residence rates apply at the following locations among others:

GENERAL REGULATIONS
CONTRACTS FOR SERVICE OR FACILITIES

A. GENERAL

1. Applications for service and facilities made orally or in writing become contracts upon the establishment of the service or facility.
2. Any change in rates or regulations prescribed by public authority having jurisdiction modifies all terms and regulations of contracts to the extent of such change.
3. Change of Customer with Continuity of Service

An applicant who qualifies for the establishment of service may take over the existing service of a subscriber without an interruption of that service.

Retention of the same telephone number is contingent on the applicant's compliance with all of the following conditions:

a. Residence Service

- (1) The existing customer concurs with the request to take over the telephone number
- (2) Applicant and the existing customer are members of the same household and have shared the telephone service.
- (3) The applicant agrees to pay all outstanding charges and assume all contractual obligations against the telephone number. (The Company will provide an itemization of all charges incurred by the previous customer before the applicant is required to elect to assume the charges and obligations or accept a telephone number change.)

b. Business Service

- (1) The existing customer concurs with the request to take over the telephone number.
- (2) Applicant assumes responsibility for all outstanding charges and all other contractual obligations against the telephone number.

4. Re-establish a Non-working Telephone Number.

The Company may accommodate the request of an applicant for assignment of an available telephone number listed in the current directory, provided the listed subscriber concurs with the assignment and the applicant assumes responsibility for all outstanding charges and all other contractual obligations against the telephone number.

5. Contracts for service or facilities may not be terminated except upon advance notice to the Company, at which time there is due and payable all unpaid charges or guarantees for the period the service, equipment or facilities have been furnished, and all applicable minimum and termination charges.

B. INITIAL CONTRACT PERIODS AND MINIMUM CHARGES

1. Unless otherwise specified in the Company's Tariffs, the minimum service period is one month from the date service is established and the minimum charge is the established rate for one month.
2. In lieu of contracts for the required initial service period, the Company may permit the payment of special installation charges or termination charges, the regular Establishment of Service Charges and installation charges to apply in addition.

GENERAL REGULATIONS

CONTRACTS FOR SERVICE OR FACILITIES

C. APPLICATION OF MINIMUM AND TERMINATION CHARGES

1. Where a contract for service with a one-month minimum service period is cancelled before establishment of service is completed, a charge equal to the costs incurred to the Company, not to exceed the minimum service charge specified, is applied if all or a portion of the equipment or facilities has been installed.
2. Where a contract for service with an initial service period of more than one month is cancelled:
 - a. After the installation of the required equipment and facilities is completed, but before service is established, the termination charge is as specified for the type of service or equipment involved.
 - b. Before installation is completed, a charge consisting of the loss on equipment and facilities in the process of being built or installed, the installation labor, the labor cost of removal and other expenses, such charge not to exceed the termination charges applicable for the type of service or equipment involved is applicable.
3. Where only a portion of a service with an initial service period of more than one month is discontinued, termination charges apply for various items of equipment discontinued, as though they were the last of their kind installed.
4. With respect to the original contract, minimum and termination charges are waived where a new customer takes over the contract, for the unexpired period thereof, for the service and facilities to be furnished at the same location without lapse of service, and assumes all unpaid charges on the original contract. Minimum and termination charges involved in the original contract are also waived where a new customer takes over the service and facilities covered by the original contract under the conditions stated, except as to payment of unpaid charges, and executes a new contract for the full required minimum period. In either case, minimum and termination charges apply for any service or facilities furnished under the original contract which are not retained by the new customer.
5. When the use of the service or facilities is terminated because of the condemnation, destruction, or damage of property by fire or other cause beyond control of the customer, which renders the premises unfit for occupancy, the customer is required to pay only the charges for the period during which service or facilities have been furnished, no minimum or termination charges being applied.

2. 3. Charges are payable at the Telephone Company's Business Office or at any agencies duly authorized to receive such payment.
4. Charges for a fractional part of a month are computed on the basis of a thirty-day month.

B. ADVANCE PAYMENTS

3. Simple interest - at the rate of 9 percent per annum - will be paid on all sums retained on deposit by the Telephone Company for thirty days or longer. No interest credit will be made on a deposit or any portion of a deposit after the date on which a notice of refund is deposited in the U.S. Mail addressed to the last known address of the customer.
4. The fact that a deposit has been made neither relieves the applicant nor the customer from complying with the Telephone Company's regulations as to advance payments and the prompt payment of bills on presentation nor constitutes a waiver or modification of the regulations of the Telephone Company providing for the discontinuance of service for nonpayment of any sums due the Telephone Company for service rendered.

D. ADJUSTMENT OF CHARGES

1. Services Under Written Consent

Adjustment of charges will be made when billing errors are brought to the attention of the Company. The adjustment (additional billing or refund) will be determined from records without regard to time period except as provided in the Statute of Limitations. PAYMENTS AND DEPOSITS

D. ADJUSTMENTS OF CHARGES (Continued)

2. All Other Services (Continued)

- b. No customer will be liable for net underbilled service after one year except when the service was obtained by the customer under fraud or deception. Correction for billing errors will be made for the period over one year from the date the billing inquiry was initiated to determine a net refund due the customer during this period of time. This refund will be paid together with interest at the rate established credit deposits.

E. TEMPORARY DISCONTINUANCE FOR NONPAYMENT

1. Where service has been temporarily denied in accordance with the provisions of this Tariff and the service is re-established, or where on account of non-payment of charges an agent of the Telephone Company visits the premises of the customer to remove or disconnect the facilities and because of payment does not discontinue the service, a subsequent order charge, line charge and premise visit charge, if applicable, applies. This charge covers the customer's entire service and facilities, being independent of the number of units involved, and is in addition to all other charges due.
2. Where service has been actually discontinued and upon payment of all charges due, the service will be re-established on the basis of a new application for service and the payment of the charges associated with such application.

F. ADJUSTMENTS FOR LOCAL TAXES, FEES, ETC.

1. The rate schedules set forth in the various tariffs of the Telephone Company do not include any amounts resulting from any taxes, fees, or exactions imposed by or for any municipal corporation or other political subdivision or local agency of government against the Telephone Company, its property or its operations, excepting only taxes imposed generally on corporations.
2. In order to prevent other subscribers from being compelled to share such impositions, the amounts resulting from any such taxes, fees, or exactions imposed against the Telephone Company, its property, or its operations, excepting only taxes imposed generally on corporations, shall be billed prorata by the Telephone Company to its exchange subscribers within the limits of the municipal corporation, or other political subdivision or local agency of government by or for which such taxes, fees or exactions are imposed.

1. Special, based on cost in the form of installation charges, monthly charges, or both, are applied in addition to the usual service connection charges and monthly rates when, because of unusual investment or expense, the revenue does not reasonably compensate the Company - when facilities are provided beyond the standard allowance, when conditions require the provision of special equipment or unusual plant construction, installation or maintenance, or when the customer's location requires annual payment for licenses or agreement for the use of Public or Private land.

E. SERVICE DROPS

1. Facilities Provided of Type Determined by Telephone Company

Service Drops are provided either by aerial facilities - on poles of the Telephone Company or of other companies - or by underground facilities (buried), and, except as covered in 2 below, the type of facilities used is determined by the Telephone Company from the conditions involved. For facilities of the type so determined, the following treatment applies:

- a. A Service Drop measuring not more than 250 feet is provided without construction charge. For the measured distance in excess of the 250 foot allowance, a facility charge applies as described elsewhere in the Company's tariffs.
- b. The measurement is the airline distance from the center of the highway paralleling the general distribution plant (located on or off the highway) to the terminal or Drop at the customer's building, or the airline distance from the distribution plant to that terminal, whichever is shorter.

2. Facilities Provided of Different Type than 1 above.

When from the conditions involved the Telephone Company determines that an aerial Service Drop should be provided and in lieu thereof the applicant desires underground or buried facilities, or when aerial facilities are used to provide service or channels to a customer and subsequently the customer requests that such facilities be placed underground, the following applies:

- a. Where cable is laid in conduit, the underground conduit shall be constructed and maintained by or at the expense of the customer and in addition the customer shall pay the cost of the underground cable - including the cost of installing it - less the estimated cost to the Telephone Company of installing such aerial facilities (not in excess of the 250 foot allowance specified in C.1.a.) as would be (or is) required to furnish the same service. The underground conduit shall be constructed in accordance with plans and specifications furnished by the Telephone Company; ownership of the conduit is retained by the customer.

The duct or ducts required in the underground conduit by the Telephone Company to furnish service shall be reserved for its exclusive use.

- b. Cable installed in conduit will be maintained and replaced at the expense of the Telephone Company where the conduit has been inspected in place by the Telephone Company and approved, but repairs or replacements of cable in conduit or trench made necessary by damages caused by the customer or the customer's representatives will be made only at the customer's expense.
- c. Where facilities are changed from aerial to underground or buried, in addition to the above, the customer is charged the cost of dismantling and removing the aerial facilities in addition to 2.a. preceding.

3. Computation of Facility Charge

- a. The facility charge will be based on cost for Service Wire for extensions in excess of the standard allowances.
- b. All service drop facilities so constructed shall be the property of the Telephone Company
